

National Tree Day

Sunday 31st July 2022

We Care A Trunk Load

In 2019, we partnered with Carbon Footprint to help fund eco-projects and plant trees. We not only donate 5% of our profits to the cause, but we enable you to donate your spare Epoints too.

Why Is National Tree Day So Important?

Personal Health

Trees act as a filter, trapping dust & absorbing pollutants from the air. Each tree removes up to 1.7 kilos per year. Over 20 species of British trees and shrubs are known to have medicinal properties too!

The Environment

Around 8 billion trees are cut down each year. Trees absorb carbon dioxide as they grow and the carbon that they store in their wood helps slow the rate of global warming.

For National Tree Day why don't you plant a tree for just £1! Click the button below to donate now.
